Dear John,

Looks like I'm in. At the quotation to you for Photo WW, the markup is ~~is~~ higher than pornography. More than 400%! Wish I could seal a few that way not.

You will be hearing from Dick Bernabei, an imaginative and fine fellow who has been in correspondence with me for some time. I do not know about what. ^{He} is also a fellow gun buff. Perhaps you can help each other.

I've finished COUP d'ETAT, which I had drafted before my last trip to N.O. and drafted a book tentatively titled "A Vitizen's Descent". No typi-gun.

Nothing else new.

Thanks, and best regards,
